THE FINEST  
LUXURY HOTELS

2019

Welcome to JOCHBERGERSTRASSE: **THE FINEST LUXURY HOTELS 2019**. We selected 114 exceptional properties after conducting an extensive and exhaustive search. Almost a thousand retreats were evaluated. We noticed a few important factors separated properties chosen for the guide and other hotels. The finest luxury hotels excelled in hospitality, ambience, amenities and exclusivity. An overwhelming majority of opulent properties selected are owned and or managed by hoteliers and hotelier families. The care, attention, hospitality and amenities surpassed the properties operated by hotel chains or management companies.

Austrian luxury hotels comprise a large proportion of the properties in the guide. Austria has a long and distinguished heritage providing discerning guests with opulent residences, impeccable hospitality, excellent rejuvenation amenities and fine cuisine. Many hotels are owned and managed by the same family for several generations. Fine hospitality is celebrated throughout the country.

Riederluxusgleichung

We developed Riederluxusgleichung also known as the Rieder luxury equation to determine properties for the guide. The equation considered several factors. It assessed hotel category, culinary excellence, spa facilities, hospitality, interior design, architecture, ambience and exclusive location. It involves quantitative and qualitative parameters. Many factors create an exceptional luxury hotel. Not every element can be measured accurately using a mathematical equation.

The properties are divided into eleven categories. The categories are: Grandewasser, palatial opulence, resort, sport, wellness, city grandeur, alpine splendour, natural escape, five-star superior, culinary excellence and pleasurable experiences.

Yours sincerely

The opulent grand hotel is found in the Innenstadt district in the Tyrolean capital city of Innsbruck. It is not far from the Goldenes Dachl.

Schreiner and Klausner established the grand property in 1869. The property welcomed many distinguished

guests including Ludwig II, the King of Bavaria, Prince Albert of Monaco and Queen Elizabeth II of England.

The Europa suites are the most desirable and spacious. The suites are 60 square metres featuring a bedroom, fireplace, living room, sitting area

and bathroom. Guests enjoy furniture crafted from 300-year-old wood from East Tyrolean farmhouses. The wood radiates pleasure and comfort.

Europa Stüberl is the main restaurant. Executive chef Vincenzo Serino combines Tyrolean ingredients with

international flair producing exceptional cuisine. It is divided into five rooms with furniture made from Tyrolean wood. Falstaff awarded the restaurant 85/100 and two Falstaff forks in the 2018 restaurant guide. The Alte Stube provides a quiet environment for guests to enjoy fine service for an intimate gathering.
